

2021 NOVA harvest

On Friday 4th June 2021, the first harvest for many years was completed.

A big thank you shout out to Michael Harbison, John Daniel and Jared Bettio for their enthusiasm, machinery and time. Along with our valuable volunteers who gave their time pruning and mulching the last few years.

The final figures for the NOVA harvest, 25tonnes of fruit and 4440 litres of oil. That's 1100 trees, 100+ varieties and 53 bins.

Below are some photos from the harvest.
